

IN THE CLAIMS:

Through this Amendment, claims 2 and 10-13 are amended into the following form:

- A4*
2. (Amended) The computer system of claim 1 wherein the radio toolbar contains:
- a) a play button for instructing the Web browser to play the first source of streaming media;
 - b) a mute button for instructing the Web browser to silence the first source of streaming media; and
 - c) a volume slider for controlling a volume of the first source of streaming media played over the speaker.

AS

10. (Amended) The computer system of claim 6 wherein said at least one second source of streaming media is a second Web page with at least one streaming-media hyperlink to at least one third source of streaming media.

11. (Amended) The computer system of claim 5 wherein said at least one explorer bar is a vertical explorer bar.

12. (Amended) The computer system of claim 5 wherein said at least one explorer bar is a horizontal explorer bar.

13. (Amended) In a computer system having a display device for rendering a graphical user interface of a Web browser displaying a Web page in a browser pane and having at least one speaker for playing a first source of streaming media, said graphical user interface comprising:

- a) a radio toolbar displaying a plurality of radio-toolbar buttons for controlling said first source of streaming media, said plurality of radio-toolbar buttons including:
 - i) a play button for instructing the Web browser to play the first source of streaming media;
 - ii) a mute button for instructing the Web browser to silence the first source of streaming media;
 - iii) a volume slider for controlling a volume of the first source of streaming media played over the speaker;

- A5
- iv) a radio-stations button allowing user selection of the first source of streaming media; and
 - v) an information area displaying information about the first source of streaming media;
- b) at least one explorer bar for providing a display area adjacent to the browser pane, said at least one explorer bar capable of displaying information and allowing user interaction;
- c) a menu bar for allowing user control of the Web browser and the Web page, the menu bar including a plurality of menu entries selected from the group consisting of: File, Edit, View, Favorites, Tools and Help;
- d) a navigation toolbar that allows user navigation of the Web page, the navigation toolbar including a plurality of navigation-toolbar buttons selected from the group consisting of: Back, Forward, Stop, Refresh, Home, Search, History, Print, Mail and Edit;
- e) an address bar identifying an address for the Web page being displayed by the Web browser in the browser pane; and
- f) a status bar showing a current status for the Web page.
-

Please add the following new claims 18-21:

Sub B Atta

18. (New) In a computer system having a display device for rendering a graphical user interface of a Web browser displaying Web page content in a browser pane and having at least one speaker for playing a first source of streaming media, said graphical user interface comprising a radio toolbar for displaying at least one button capable of controlling said first source of streaming media irrespective of the Web page content being browsed.

19. (New) In a computer system having a display device for rendering a graphical user interface of a Web browser displaying Web page content in a browser pane and having at least one speaker for playing a first source of streaming media, said graphical user interface comprising:

- ~~a) a radio toolbar displaying a plurality of radio-toolbar buttons for controlling said first source of streaming media irrespective of the Web page content being browsed, said plurality of radio-toolbar buttons including:~~
- ~~i) a play button for instructing the Web browser to play the first source of streaming media;~~
 - ~~ii) a mute button for instructing the Web browser to silence the first source of streaming media;~~
 - ~~iii) a volume slider for controlling a volume of the first source of streaming media played over the speaker;~~
 - ~~iv) a radio-stations button allowing user selection of the first source of streaming media; and~~
 - ~~v) an information area displaying information about the first source of streaming media;~~
- ~~b) at least one explorer bar for providing a display area adjacent to the browser pane, said at least one explorer bar capable of displaying information and allowing user interaction;~~
- ~~c) a menu bar for allowing user control of the Web browser and the Web page, the menu bar including a plurality of menu entries selected from the group consisting of: File, Edit, View, Favorites, Tools and Help;~~
- ~~d) a navigation toolbar that allows user navigation of the Web page, the navigation toolbar including a plurality of navigation-toolbar buttons selected from the group consisting of: Back, Forward, Stop, Refresh, Home, Search, History, Print, Mail and Edit;~~
- ~~e) an address bar identifying an address for the Web page being displayed by the Web browser in the browser pane; and~~
- ~~f) a status bar showing a current status for the Web page.~~

20. (New) In a computer system having a display device for rendering a graphical user interface of a Web browser displaying Web page content in a browser pane and having at least one speaker for playing a first source of streaming media, said graphical user interface comprising at least one explorer bar for providing a display area adjacent to the browser pane,
